The Glass Industry

THE MONTHLY JOURNAL OF

Glass Technology, Engineering, Raw Materials, Glass Factory Equipment and Operation

Index to Volume 8

JANUARY TO DECEMBER, 1927

GLASS INDUSTRY PUBLISHING COMPANY, INC.
NEW YORK

1 to 24	January
25 to 48	February
49 to 72	March
73 to 102	April
103 to 126	May
127 to 154	June
155 to 182	July
183 to 206	August
207 to 230	September
231 to 254	October
255 to 278	November
279 to 306	December

ARTICLES

Aluminum Hydroxide for the Manufacture of Opaque Glass..... 62
*American Ceramic Society's Annual Convention 49
*American Ceramic Society, Glass Division of..... 27
*Annealing Device. The Full Automatic Fuelless 103
Automobile Glasses 282
*Batch at a Modern Plate Glass Plant. Filling in the..... 3
Batches, Glass
Brown 279
Colored glasses containing iron .. 30
Eye-protective 222
Milk Bottle 26
Opaque 62, 63
Plate 1, 283
Selenium Ruby 280
Silica Free 16
Silver Glazing, Yellow 281
Yellow 279
Yellow Silver Glazing 281
*Batch-Feeding Equipment in Libbey-Owens Sheet Glass Company's Plant at Charleston, West Virginia 256
*Bicheroux, The, Process of Making Plate Glass 207
*Bicheroux, The, Plate Glass Casting Process According to..... 231
Blisters, Magic 75
*Bottle Plant, A Successful Pennsylvania Milk 209
*Bottle Works. The Big Bertha of the 164
Census Reports on Glass and Mirrors, 1925 32
*Chemical Engineering Contributes to Better Lighting 285
*Chromium Plated Molds. Progress Made with 157
Coloring Agents for Glass. Iron and Its Compounds as 29
*Composition of Glassware, Brilliancy and 73
Continuous Tank Practice. Influence of Character of Fire 25
*Decorated Glasses by Henri Navarre 258
*Deformation of Glassware Due to Unequal Cooling During Manufacture. The 74
Ductility As a Working Property of Glass. Importance of 183
*Etching, Matt, Glass Bulbs (see Frosting) 285
Fire in Continuous Tank Practice, Influence of Character of 25
*Ford's St. Paul Plant. Glassmaking Advanced at 247
*Frosting, Inside, of Incandescent Lamp Bulbs 285
*Fuel Economy in Glass Works Practice 185
*German Society of Glass Technology. Meeting of 158
Glass and Mirrors, 1925. Census Reports on, ... 32
*Glassblowers of Murano. The 189
*Glass Construction—The History of the Incandescent Lamp 213, 242
Glasses for Protection Against Harmful Rays 194
Glass. Importance of Ductility as a Working Property of 183
Glass in Tanks. The Flow of ...155, 255
*Glassmaking Advanced at Ford's St. Paul Plant. 247
Glass Mixtures, Modern 279
*Glass of Leerdam. The Art 5
*Glass Technology. Meeting of German Society of 158
*Glassware. Brilliancy and Composition of 73
*Glassware Due to Unequal Cooling During Manufacture. The Deformation of 74
*Glassware, Specimen of Modern 65
*Glassware. Surface Tension as a Factor in the Forming of 259
*Glassware. Temperature Gradients in the Fabrication of Machine Blown 8
*Glass Works Practice. Fuel Economy in 185
*Incandescent Lamp. The History of the—Glass Construction 213, 242
Iron and Its Compounds as Coloring Agents for Glass 29
Laboratory to a Corporation, The Value of a 40
LABORATORY, THE— 90, 138, 219
*Labor by Machinery in the Glass Industry. Displacement of 110, 161
*Lehr. Development of the Unit 106
Light-Diffusing Glasses, Manufacture of 109
Machinery in the Glass Industry, Displacement of Labor by 110, 161

* Articles marked with asterisk are illustrated.

*Milk Bottle Plant. A Successful Pennsylvania 209
Mirrors, 1925 Census Reports on Glass and 32
*Molds. Progress Made with Chromium Flated 157
Opacity. Materials for Producing.—Manufacture of Light-Diffusing Glasses. 109
Opaque Glass. Aluminum Hydroxide for the Manufacture of 62
*Plate Glass Casting Process According to Bicheroux. The 231
*Plate Glass Pot Filling Processes, Development of 58
*Plate Glass Practice, Some Aspects of Current, ... 1
Plate Glass Production Costs. Second Tariff Hearing on 133, 165
Plate Glass. The Bicheroux Process of Making 207
Plate Glass. Tariff Commission's 1926 Report to Congress 34
*Pot Filling Processes, Development of Plate Glass 58
Purchasing Engineer, Duties of the.. 10
Plate Glass. Resume Public Hearings on Cost of (See Errata) 79
Producer Practice. Progress in Gas 261, 289
Pyrometric Terms, Definitions of 31
Refractories. The Deterioration and Failure of Glassworks ...127, 190, 211
Regeneration in Glass-Tank-Furnaces 239
Sand Analysis. Tentative Method for Complete 217
Solarization of Ultraviolet Transmitting Glasses 267
*Spectral Characteristics of Light Sources and Window Materials Used in Therapy. 263
*Surface Tension as a Factor in the Forming of Glassware 259
Tank Block Endurance 61
Tank-Furnaces. Regeneration in Glass 239
Tanks. The Flow of Glass in ...155, 255
TECHNICAL CONSULTATION SERVICE 13, 39, 93, 117, 141, 245, 269
*Temperature Gradients in the Fabrication of Machine Blown Glassware 8
*Ultraviolet Glass. Bureau of Standards Circular on—(See also Solarization—page 267) 240
Ultraviolet—Spectral Characteristics of Light Sources and Window Materials Used in Therapy 263
Ultraviolet Transmitting Glasses. Solarization of 267
Warping of Pressed Ware 75

MINOR ARTICLES, ABSTRACTS

Analysis of Glasses, Notes on the.... 221
Art Design of Glass Ware (Abstract) 77
Bicheroux. The Plate Glass Process of (Abstract) 158
Bottle Machine. The New British 15-Arm Automatic Suction (Abstract) 173
Bottle Glass, The Detection of Selenium in Decolorized (Abstract) 291
Chemical Composition and the Thermal Expansion of Glasses, The Relationship Between, (Abstract) 53
Clay Shapes for the Window Glass Industry, Large (Abstract) 77
Colored Glass and Decorated Containers 269
Decorated Containers. Colored Glass and 269
*Durox Glass House Refractories (Abstract) 77
Expansion by Light Waves. Measures Glass 218
Frosting of Glass by Mixtures Containing Hydrofluoric Acid and Alkaline Fluorides, The (Abstract). 51
Fuels for Furnace Heating Gaseous (Abstracts) 238
Gases in Glass (Abstract) 160
Gas Pressure in Glass Works. Automatic Regulation of (Abstract).. 160
Glass Analysis, Tentative Standard Method of (Abstract) 55
Glass by Water at High Temperatures and Pressures. The Decomposition of (Abstract) 173
Glasses. Notes on the Analysis of.. 221
Glassy State. The Problem of the Nature of the (Abstract)..... 159
Health Hazards of the Glass Industry 197
Laboratory Glassware, Novel Method of Making (Abstract) 195
Melting Pots, Properties and Service of Glass, (Abstract) 53
Molds, Design of Parison (Abstract) 63
Opal Glass. The Brittleness of (Abstract) 173
Opal Glass, Crystal Growth and Impact Brittleness (Abstract) 281
Plate Glass Process of Bicheroux. The (Abstract) 158
Refractories. Discussion on Glass Industries (Abstract) 246
*Refractories. Durox Glass House (Abstract) 77
Selenium, The Detection of, in Decolorized Bottle Glass (Abstract). 291
Silica During Glass Melting, The Loss of (Abstract) 53
Sillimanite-Mullite Problem. The (Abstract) 159
Soda-Potash-Lime - Alumina - Silicate. Physical and Chemical Properties of the System—(Abstract) 260
*Tank Blocks, Design and Service of (Abstract) 76
*Tank Furnace Practice, Some Aspects of American Glass (Abstract) 56
*Temperature of Glasses. A Method for Measuring the Softening (Abstract) 57
Thermometer Industry of Thuringia. Development of the (Abstract).. 193
Ultraviolet Transmitting Glass, Produces 33
Window Glass Industry. Large Clay Shapes for the (Abstract) 77
